Notes

1. The Neuro Foundations block is a rotation at the beginning of the CNY1 academic year consisting of the introductory neurology lecture series, hands on examination practice, EEG intensive exposure, and shadowing opportunities for inpatient services. Continuity clinic is also held during this block.
2. Residents have 20 work days for paid time off. This time may be taken as indicated during neuropathology, as well as during elective, adult elective, and research blocks.
3. Outpatient above includes continuity clinic, which is on average of ½ day per week x 48 weeks, with a minimum of 40 clinics
4. In second and third year, resident may have up to a week of educational leave to attend a national neurology meeting, generally scheduled during an elective block
5. Examples of Electives (Adult Neuro Elective or Child focused): Dementia, Developmental/Behavioral, Epilepsy, Genetics, Movement Disorders, Neurocritical Care, Neuro-immunology, Neuromuscular, Neuro-ophthalmology, Neuropathology, Neuropsychology, Neuroradiology, Neurosurgery, Palliative care, Pain Management, Physical Medicine and Rehabilitation, Senior Teaching Elective, Sleep Medicine, Sport Neurology
